Teachers Feedback on Curriculum

Rate the Particulars by putting tick marks in the appropriate cell.

Sr.No	Particulars	Excellent	Good	Satsisfactory	Poor
1	The learning objectives are clear andappropriate to the program.	✓			
2	The curriculum and syllabus are wellorganized and suitable for the program.			✓	
3	The textbooks/Reference Books are well suited to the course.		✓		
4	The system followed by the university for the design and development of thecurriculum is effective.			✓	
5	Provision to update curriculum from time to time.			✓	
6	Rate the distribution of contact hours among the course components?		✓		
7	The curriculum has a good balance between theory and practical.	✓			
8	Rate the electives offered in relation to the technological advancements?		✓		

Suggestions for further Improvement-
(new courses, uncovered topics, obsolete topics, laboratory experiments, software etc.)

Text books are not sufficient to find out solutions of problems faced during performing task. More hands on practice & industry interaction is necessary for entrepreneur develop.

Your answer

**Pass out Year** *

Your answer

1.The curriculum prepares the graduate to *
deliver technical services as per industry
requirements,

○ High

○ Moderate

○ Poor

2.The graduate has an deep exposure to *
the core courses

○ High

○ Moderate

○ Poor

3.The graduates have adequate practical *
exposure for for undertaking real-time
projects

○ High

○ Moderate

○ Poor

4.The graduates have the necessary soft *
skills and are successful team players.

○ High

○ Moderate

○ Poor

Guru Nanak Educational Society's

GURU NANAK INSTITUTE
OF ENGINEERING & TECHNOLOGY

APPROVED BY AICTE, DTE & AFFILIATED TO RTM NAGPUR UNIVERSITY, NAGPUR

Dahegaon, Opp IOC Petrol pump, Kalmeshwar Road, Nagpur- 441501 Ph. 07118-661400
Website: www.gniet.ac.in   E-mail: gnietnagpur@gmail.com

VISION:

To educate students from all over India & other countries including especially those from the local & rural areas, so that they become enlightened individuals improving the living standards of their families, industries & the society. We will provide the world class quality education & pay serious attention towards the development of an individual for character building & the nation building.

MISSION:

To become a world class, globally competitive and flexible technical and management institution, responsive to the growth of an individual, society, and the institute itself satisfying the development needs of the people of Maharashtra and India.

NAAC ACCREDITED

Programme Outcomes:

PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

PO2: Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

PO3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO5: Modern tool usage: Create, select and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with am understanding of the limitations.

PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

PO7: Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of and need for sustainable development.

PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

PO9: Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO12: Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.
