### Cancer Awareness Seminar

### REPORT

Date: 14/10/2022

NSS cell of GNIET, Nagpur organized seminar on **Cancer Awareness on 12 /10/2022** to promote awareness on cancer as a public health issue and to strengthen actions towards improving access to quality care, screening, early detection, treatment and palliative care. This year's theme is "close the care gap" which is about understanding the inequities in cancer care and taking actions to make the necessary progress to address them.

Dr Kiran Sonekar from STOP cancer mission, Nagpur was the guest speaker. He explained various causes of cancer and how it can be prevented. He said We are observing World Cancer Day at a time when the world continues to live through the COVID-19 pandemic, where people living with cancer are at risk of getting severe symptoms.

People living with cancer often develop COVID-19 symptoms more quickly, and they may suffer complications and require admission to an intensive care unit (ICU) if they do not seek immediate medical care. Unfortunately, the COVID-19 pandemic continues to cause significant cancer care disruptions, impacting patient access and lives. Moving forward, we have the opportunity to put the lessons being learned during this pandemic to good use in order to step up action to address disruptions and inequities in cancer prevention, care and control.

The program was co-ordinated by NSS co-ordinator Prof Vijaya Kamble. All the HOD's and faculties of CSE, EE, MBA, ETC were present on this occasion. Also the non teaching staff was present for seminar. Prof Rajendra Bhombe Vice Principal, GNIET, Dr Hemant Hajare supported for the program
