on

“Personality Development Tips, Stage & Skills”

along with

Indian Society for Technical Education

In Association with

Junior Chamber International, Nagpur

21st July 2022 to 22nd July 2022

Organized by

Department of Applied Sciences & Humanities

along with

Industry Institute Interaction Cell

GURU NANAK INSTITUTE OF ENGINEERING & TECHNOLOGY,

Dahegaon, Kalmeshwar Road, Nagpur 441501.

DATE: 23/07/2022

INTRODUCTION OF THE PROGRAMME:

It is a programme which helps the students and faculty to know about the personality development which helps them to gain recognition and acceptance from the society as well as people around. Personality development plays an essential role not only in an individual's professional but also personal lives. It helps to make an individual disciplined & punctual. On 21st July – 22nd July 2022, ASH, GNIET Organized Two day's workshop on “**Personality Development, Tips, Stages and Skills**” along with Industries Institutes Interaction cell of GNIET in association with ISTE (Indian Society of Technical Education) and JCI (Junior Chamber International), Nagpur for students as well as for faculties.

THE OBJECTIVES OF PROGRAMME:

1. Information about Personality development and role in organization
2. Leadership
3. Stage daring
4. Innovations and inventions
5. Interview skill
6. Soft skill at working environment
7. Awareness of carrier choice methodology
8. Basic Focus on personality development and inner skill

PROGRAMME CO-ORDINATOR & ORGANIZER COMMITTEE:

Prof. Sadaf Gauhar, HOD ASH, GNIET, Nagpur

Mr. Manish Agrawal, Head of III cell and Asst. Prof. EE.

Session 2022-2023

A Report on
Induction Programme for Engineering Entrants
Academic Year 2022-23

Institution
GURU NANAK INSTITUTE OF ENGINEERING &
TECHNOLOGY
Dahegaon, Kalmeshwar Road, Nagpur-441501

About Institution from the Principal's Desk

Guru Nanak Institute of Engineering and Technology (GNIET), established in the year 2007 is affiliated to Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur. GNIET attracts students from all over India because of its highly equipped campus, emphasis on practical training, self- learning & discipline. The staff at GNIET is dedicated and efficient and ensures steady involvement of its students through constant, formal & informal interactions which has enabled the institute to get ISO Certification. The institute is enriched with well qualified and experienced teachers in addition to knowledgeable and expert visiting professors. Apart from standing out in academics, GNIET regularly organizes co-curricular & extra-curricular activities to impart necessary training through guest lectures, project model exhibition, competitions, seminars, workshops, short term courses, sports and games.

“At GNIET, we provide quality education which enables our students to face challenges at global level. Our systematic approach in classroom, laboratory-teaching and unique teaching-learning process enhances comfort level of students in understanding. We have Wi-Fi campus and all the laboratories are well equipped. Our library is enriched with large number of books, international journals and magazines. Expert/Guest Lectures by professionals are regularly organized to bridge the gap between structured curriculum and current industry needs. Additional training is provided to students to develop their interpersonal skills and soft skills to enhance their employability potential. Institute is also successfully running Teacher-Gaurdian Scheme for overall development of students. Our faculty members are highly motivated, experienced and are encouraged for higher education, research and consultancy.”

Objectives of Program

- 1) To help the engineering entrants adjust and feel comfortable in the new academic year
- 2) To furnish them with an ease of transition to mainstream engineering studies through the introduction of ethics and culture of the institution.
- 3) To help entrants build progressive and emotional bonds with peers and faculty members to self explore and comprehend the larger purpose.
- 4) To inculcate the virtues of health and hygiene and help them realize the power of inner strength
- 5) To revise and reform the seminal concepts to fill the lacuna and sensitize them towards exploring their academic interest and goals for excellence in academics
- 6) To develop awareness, sensitivity, and understanding of the self, people around them, society at large, and nature
- 7) To promote holistic development through the exposure of wide gamut of curricular, co-curricular and extracurricular activities.

About Induction Programme

Guru Nanak College of Engineering hosted the Induction Program, a unique fusion of specially engineered academic and non-academic activities, to nurture, mould and fortify engineering entrants for the days to come. The two weeks' phase commencing from 17th November 2022 to 7th December 2022.

The college committee for Induction programme invited experts from different leading industries and esteemed institutions to interact with the entrants and brief the learners with their expertise in various fields. Along with expert talks, the students were exposed to village visit and industrial visits for catering their social as well as technical side of learning.

Day-1 (17-11-2022) Guru Nanak Institutions organized the Induction program 2022 for first year students. The purpose of this induction program year was to orient the students about their session & guide them for academic excellence.

“To succeed in your mission you must have single minded devotion to your goal. You’re Confidence & hard work is the beet medicine to kill the disease called Failure. It will make you a successful person.”

-Dr. A.P.J.ABDUL KALAM

With the motto of GNI “Education First” and motto of ASH B.TECH GNIET “Building a solid foundation”, ASH department of GNIET started Induction activities under Student Induction Program “UDAAN-2022” which is started from 17th November 2022 to welcome B.Tech. First Year Students in the college, to make them familiar from the staff and the campus.

Day-1 (17-11-2022), Prof. Sadaf Gauhar HoD ASH GNIET welcomed newly admitted students, she told about the induction activities, its benefits as suggested by AICTE and present her gratitude by giving budding engineers best wishes followed by the introduction of each faculty with the briefing about related subjects, specialization and their experiences. In the second half of first day, campus visit was organized where students went to each department and departmental faculties explained the core features of branches and their career growth.

LAB Visits on 17-11-2022

Take up one idea. Make that one idea your life- think it, dream of it, live on that idea. Let the brain, muscles, nerves, every part of your body, be full of that idea, & just leave every other idea alone. This is the way to success.

-Swami Vivekananda

Day-2 (18-11-2022) was the sports day and the main objective of this was to make the healthy environment amongst B.Tech first year students. Various indoor and outdoor games have been organized. Students enjoyed a lot. They made a team and did every possible try to win the game which enhanced their skills to work in a team and achieved the goal they set.

Day-3 (21-11-2022): A “Computer Awareness” workshop was organized for the B.Tech. first year students by Prof. Mayuri Shrungare & Prof. Ankita Shende; Assistant Professor CSE GNIET. The main aspect to conduct this workshop is to make students aware about the basics of computer system, I/O processing and handling of digital data. Nowadays, we all are surrounded by digital technologies only therefore it is very much important to start teaching digital systems from starting. This was very interactive session. Students gained practical knowledge of word processing and computation oriented software also.

Day-5 (23-11-2022): A highly valued session on entrepreneurship as over government is very much concern about has been organized. The topic “Motivational talk on Entrepreneurship & Government Policy Program” was delivered by the resource person Mr. Chakradhar S. Dodke, former asst. director, IMT. The purpose to choose this topic for our budding engineers was to make them understand the importance of entrepreneurship because entrepreneurship is the process of turning a concept into a developed product that is what an engineer does. Mr. Chakradhar Dhoke addressed the students with the words as entrepreneurs start new firms, which may mean more job prospects for individuals. People who start a new business typically have the opportunity of working for themselves and support other businesses while expanding their own business. Entrepreneurs can both earn cash for themselves and employ others in their business activities. As a result, entrepreneurship usually creates new jobs at every level. Furthermore, Mr. Chakradhar S. Dhoke discussed various government policies for entrepreneurship and startups, few he stated were Atal Incubation Centre, MSME Business Loans in 59 Minutes, Coir Udyami Yojana, Stree Shakti Package, and Standup India. The session left the students with the idea for the startups and be the owner for the future businesses. This activity also attached a goal in students jouney.

REPORT DAY 9:

Day-9 (29-11-2022): This day session was distributed in two areas. First discussed topic was “Carrier, Prospects, Progression and Scope in Data Science” and it was taken by Mrs. Neha Tekade, NU Intelligence Pvt. Ltd., she addressed the gathering by introducing data science, its phases and opportunities. She told that there is a 73.5% growth in data science jobs in India between March 2020 and April 2022. There will be more than 11 million open jobs in India by 2026. As per LinkedIn, data science is the fastest growing field, and there are enormous possibilities. Second topic of the session was “Carrier, Prospects, Progression and Scope in Industrial Robotics & Automation” and speaker was Ms. Shalini Patle from NU Intelligence Pvt. Ltd. Nagpur. She define the topic as “Industrial automation and robotics are the use of computers, control systems and information technology to handle industrial processes and machinery, replacing manual labour and improving efficiency, speed, quality and performance” concluded it with the opportunities students will get if they select it as their career option.

Awareness on health and wellness” dtd 02-12-2022

REPORT DAY 13:

Day-13 (05-12-2022): A technical session on the topic “Life Solar Module” has been organized for the students of ASH B.TECH, GNIET. Mr. Shrikant Ganjare, Co-Founder / Entrepreneur, ThinkSolar, Nagpur was the speaker of this technical talk. Speaker introduced solar power plant (off-grid) with power pack & its configuration in rural areas, NGOs and in forest area. He further explored that on getting site's detailed address, roof mapping can also be done using GIS (Geographical Information System) services and 3D model can be created indicating the overall capacity of roof for Solar Panels/Systems to be installed & Solar Rooftop system proposed accordingly. He also presented a working model in front of students by creating students’ batch so that each individual student got benefitted from it.

REPORT DAY 14:

Day-14 (06-12-2022): A personality grooming session with the topic “Personality Grooming Rules to Get Success in Career” been organized for first year B.Tech. students under induction activity. For the well justification of session’s topic and its execution; the renowned resource person was Hon’ble Sardarni Tanpreet Kaur Tuli, Secretary GNES; she is the role model for many students as she always motivated the students to groom professionally and personally. Session was very much interactive, ma’am brief the students about the need to enhance personality according to career perspectives. She randomly called the students in front and asked them to introduce themselves; she made the required correction and shared the proper way to introduce oneself and what could be the proper outlook for interviews and in industries, students also shared their thinking regarding personality development and queries related to it. In the end, ma’am concluded the session with the statements as “Self-development makes you better at handling stress, which ties in with our first benefits. The better you know yourself, the more balanced you feel. The more you trust your abilities, the lower your stress levels. With better skills, you become more productive and finish tasks faster”.

REPORT DAY 15:

Day-15 (07-12-2022): Last session under 15-days induction activity had been conducted with the topic "Personality Development: Renewing Identity, Self-esteem, Skills & Learning Perspectives" by Respected Dr. Hemant Hajare, Principal GNIET, he addressed the students with the statement that personality development encompasses the dynamic construction and deconstruction of integrative characteristics that distinguish an individual in terms of interpersonal behavioral traits further he briefed that it is ever-changing and subject to contextual factors and life-altering experiences. He has explained the stress management, learning skills and improvement of confidence-level by taking various real world examples. Though this was the last induction activity but students cherish sir's interaction very much.
